

Project Code Ownership & File Distribution

This document outlines the division of files and responsibilities among the 6 team members for the GeM Compliance Verification Platform.

Frontend Team (2 Members)

Team Member 1 (Frontend Architecture & Integration)

Responsible for complex state management, routing, API integrations, and dynamic dashboards.

- `frontend/src/App.jsx` (Routing)
- `frontend/src/components/Layout.jsx` (Stateful Navigation)
- `frontend/src/pages/BidderDetail.jsx` (Complex AI Dashboard & Timeline)
- `frontend/src/api/*.js` (Backend Communication)
- `frontend/vite.config.js` & `package.json`

Team Member 2 (UI/UX Development)

Responsible for building responsive user interfaces, forms, static pages, and CSS styling.

- `frontend/src/pages/LandingPage.jsx`
- `frontend/src/pages/BidderLogin.jsx` & `BidderSignup.jsx`
- `frontend/src/pages/CreateTender.jsx`
- `frontend/src/pages/OfficerDashboard.jsx`
- `frontend/src/index.css` & `App.css`
- `frontend/tailwind.config.js`

Backend Team (4 Members)

Team Member 3 (Core AI & Orchestration Engine)

Responsible for the central verification logic, AI integration, scoring mathematics, and OCR pipeline.

- `backend/services/verificationOrchestrator.js`
- `backend/services/recommendationEngine.js` (Groq AI)
- `backend/services/scoringEngine.js`
- `backend/services/ruleEngine.js`
- `backend/services/documentExtractor.js` (Tesseract/OCR)

Team Member 4 (Database Architecture & Schema Design)

Responsible for designing MongoDB schemas, data relationships, and synthetic data generation.

- backend/models/BidSubmission.js & SellerProfile.js
- backend/models/Tender.js & Document.js
- backend/models/AuditLog.js & ComplianceCheck.js
- backend/config/db.js
- backend/seed.js (Data Seeding)

Team Member 5 (API Routing & Business Logic Controllers)

Responsible for the REST API structure, handling client requests, and server configuration.

- backend/server.js
- backend/routes/bidderRoutes.js & tenderRoutes.js
- backend/routes/documentRoutes.js
- backend/controllers/bidderController.js
- backend/controllers/tenderController.js
- backend/controllers/sellerProfileController.js

Team Member 6 (External API Integration & Mock Services)

Responsible for government API simulations, third-party integrations (RapidAPI), and file upload handling.

- backend/mock_services/gstService.js (RapidAPI)
- backend/mock_services/panService.js & udyamService.js
- backend/mock_services/registryMock.js
- backend/mock_services/synthetic_data/*
- backend/controllers/documentController.js (Multer)
